LS Page Referrer	Page Title	Event co... ▾	Total users
No data			

For Reference:

Total users: All users who’ve landed on your site.

Active users: Users who have had an engaged session or are in their first session.

New users: Users who have visited your site for the first time.

Returning users: Users who have visited your site before. *We are typically not utilizing this in these reports

The same user can be both a new and a returning user, that’s why the sum of “New users” and “Returning users” is usually higher than “Total users”
